

Quarterly Referrals Report — AFTER

Same numbers. One header row, no merged cells — so the structure survives the export to PDF.

Referrals by program and quarter

Program	Q1 referrals	Q1 completed	Q2 referrals	Q2 completed
Prevention	412	388	455	401
Recovery support	203	191	228	210
Youth outreach	156	140	173	158

Table 1. Referrals by program and quarter, FY24-25.

What changed: the merged “Q1”/“Q2” row is gone — the quarter moved into the header text instead. One header row, marked to repeat across page breaks (Table Properties → Row → Repeat as header row). Now every number is announced with the header that owns it: “Prevention, Q1 completed, 388.”
